Career Objective

Full Stack Java Developer with hands-on experience building end-to-end web applications using **Java, Spring Boot, JDBC, Hibernate, and MySQL**, complemented by front-end skills in **React, JavaScript, and Tailwind CSS**. Skilled in **MVC architecture** and secure authentication, with practical experience gained through a Full Stack Developer internship at TAP Academy and independently built full-stack projects, delivering reliable, production-ready web applications end to end.

Skills

Programming:	Java, JavaScript
Frontend:	HTML5, CSS3, JavaScript, Tailwind CSS, React
Backend:	Spring, Spring Boot, Hibernate, JDBC, JSP/Servlets
Database:	MySQL
Tools:	Git, GitHub
Core:	Object-Oriented Programming (OOP), MVC Architecture, Problem Solving

Projects

Wearora – Full-Stack E-Commerce Web Application *Aug 2026 – Sep 2026*
Java, Spring Boot, Spring Security, JWT, Spring Data JPA, MySQL, React.js, Vite Repo

- Developed a full-stack e-commerce application using **React.js** and **Spring Boot**, featuring product browsing, product variants, cart and wishlist management, checkout, COD orders, and order tracking through **REST APIs**.
- Secured the platform with **JWT**-based authentication and **Spring Security**, adding customer-specific order access and role-based permissions for product management to separate customer and admin responsibilities.
- Engineered transactional checkout and order cancellation with stock validation and **pessimistic database locking** to coordinate inventory updates and reduce overselling and duplicate stock-restoration risks.

Hungrify – Food Delivery Web Application *Jul 2026 – Aug 2026*
Java, JDBC, Servlets, JSP, MySQL, HTML5, CSS3, JavaScript, Git, GitHub Repo

- Created **Hungrify**, a food delivery web application supporting **15+** restaurant listings, with menu browsing, shopping cart, and order management.
- Integrated secure login with **BCrypt** password hashing and session-based management for **2** user roles.
- Implemented dynamic features such as restaurant-wise menu loading, quantity management, cart operations, and real-time price calculation.

Experience

Full Stack Developer Intern – TAP Academy *Feb 2026 – Sep 2026*

- Maintained and extended full-stack web applications across **3+** project modules using **Java, JDBC, Servlets, JSP, Hibernate, Spring Boot, HTML, CSS, JavaScript, and MySQL**.
- Structured **5+** backend components following the **MVC** architecture, ensuring clean, modular, and maintainable code.
- Delivered CRUD functionalities across **4+** core features, integrating **MySQL** databases through JDBC for efficient data management.
- Debugged and resolved **10+** production issues, working closely with mentors to optimize application performance.

Achievements

- Successfully completed the **100 Days Challenge** on TAP Academy's **TAI Platform**, demonstrating consistent practice in programming, aptitude, and technical skills.
- Gained hands-on web application development experience through the **Java Full Stack Developer Internship** at TAP Academy.

Education

Bachelor of Computer Application – Dr. Ambedkar Memorial Institute of Information Technology & Management Science, Rourkela, Odisha *2022 – 2025*

CGPA: 7.2
